Search for potential partners

Finding the right partners is key to turning your project idea into a successful venture.

In this dedicated area, you can search and connect with potential partners for your projects.

As a registered community member, you can explore profiles of other organisations seeking partnerships. Identify those whose goals align with yours and reach out to them via email.

By leveraging the power of collaboration, you can tap into a network of expertise, resources, and shared ambitions to amplify the impact of your projects.

Look for partners and register to contact potential partners or to build your own profile. Results of searches are in alphabetical order of partners' names, and a partner may show more than once as it is not possible to fully consolidate all partnerships.
